Python | C | HTML | CSS | OOPs | Machine Learning | Tableau | Cryptography | SQL | IOT | MangoDB | Data Structure | Data Analytics

PROJECTS

Curbing the decline of wild and managed bees
- The aim of the project is to create a single application to detect bee's health, whether it's pollen carrying or not and it's subspecies.
- Analyzing bees health would help us to find if their population decline is due to its poor health condition or not.

Cyber Breaches Trend Dashboard
- A Dashboard to Analyze the trend of common Cyber Breaches in US and its causation with preventive measures.

Ecommerce app
- It is the android mobile app where customers buy different products and sellers sell their different products in same platform .
